

Standardisation of Forensic Image and Video Enhancement (S-FIVE)

Presenter(s) / Leader(s) / Moderator(s):

Patrick De Smet (NICC), Simon C. Latham (MPS), Stefan Ott (BKA)

Target audience: any interested person

Maximal number of participants: 50

Minimum number of participants: 5

Duration of workshop: half day

Short description: This workshop is the Final Event for the S-FIVE Project. First, the Project Team will present and discuss the activities and results obtained while conducting an extensive survey of the field of forensic image and video enhancement. Next, the contents of the developed Central Repository containing an overview of the existing state-of-the-art will be presented, as well as a discussion on the Collaborative Exercise that was organised. Finally, the development of a (draft) Best Practise Manual document will be discussed.

Project S-FIVE is an ENFSI Monopoly 2011 Project, financed by the European ISEC Programme: Prevention of and fight Against Crime Action Grants; European Commission - Directorate-General Home Affairs. More information about the S-FIVE project is available at:
